

ACTION BY The EUROsocial+ PROGRAMME

IN SYNERGY WITH THE FOCAL POINTS:

EUROPEAN UNION DELEGATION

Diplomatic relations between the European Union and Honduras are based on the European Union-Central America Association Agreement. The priorities chosen for development cooperation include governance, decent and sustainable employment and food security.

WE PROMOTE DIALOGUE BETWEEN COUNTRIES

Within the framework of the identification mission carried out in Honduras in 2017, where the programme met with 20 institutions, the country presented the EUROsocial+ Programme with a total of 11 requests for support in its public policies (actions), of which three are currently being supported and discussions are continuing on five new support initiatives.

PLANNING FROM THE COUNTRY

Honduras has a plan called Country Vision 2010-2038, implemented through the establishment of 17 guiding principles for development, four national objectives and 22 national priority goals. It also has its Nation Plan 2010-2022, which contains 11 strategic guidelines for achieving the Country Vision. Finally, there are the Government Plans, which cover four-year periods and which chart the government's efforts to achieve short-term goals.

WE WORK WITH:

- ▶ Supreme Court of Justice
- ▶ Institute of Access to Public Information
- ▶ Secretariat of Labour and Social Security

TO SUPPORT SOCIAL COHESION WITH

THAT CONTRIBUTE WITH THE

SUSTAINABLE DEVELOPMENT GOALS

Consortium led by:

Area: Democratic Governance Policies

Line of Action: Access to justice

We are supporting the implementation of the “100 Brasilia Rules on Access to Justice for People in Vulnerable Conditions”, through technical advice on the design and development of institutional policies and their promotion, dissemination, understanding, application and incorporation, as a transversal axis, in the approval and execution of programmes and projects that guarantee access to justice in Honduras.

Line of Action: Good governance

At the multi-country level, work is being undertaken together with Uruguay and El Salvador to generate a Municipal Management Model on Transparency and Access to Public Information, whose different dimensions are aimed at increasing compliance with laws on access to public information in the municipalities of the participating countries.

Area: Social Policies

Line of Action: Active Employment Policies

The Government of Honduras, through the Ministry of Labour and Social Security, is promoting an initiative to reform the current professional training and capacity-building system. The objective of the reform is to create conditions so that, based on equal opportunities, the workforce has an adequate level of education, technical training and professional training that correspond to the needs of the labour market. In order to nurture the technical and political discussion on professional training and skill-building in Honduras, as well as to support the reform proposal, it is necessary to refer to similar processes developed in other countries. Within this framework, the support from EUROsocial+ will be aimed at facilitating the relationship between these reform experiences, and the lessons and inputs that come from them, and their incorporation into the ongoing process in Honduras. Two technical assistance missions have been carried out to assess the situation regarding vocational training in Honduras and the scope of the reforms promoted by the government, and to define with the Ministry of Labour an operational strategy to advance the comprehensive reform of the EFTP in line with international standards.

SHARING EXPERIENCES

Honduras participates in the EUROsocial+ Programme as a transferring agent of its good institutional practices, together with El Salvador, with the Trifinio Plan for regional development.
