TO SUPPORT SOCIAL COHESION WITH

THAT CONTRIBUTE WITH THE

SUSTAINABLE DEVELOPMENT GOALS

Consortium led by:

Area: Gender Equality Policies

Line of Action: Violence; sexual and reproductive health; and concepts of masculinity

- ▶ The intervention model was designed for men who perpetrate violence against women in the Prison System and the Public Policy against Sexual Violence 2019-2029 from the Secretariat against Sexual Violence, Exploitation and People Trafficking. This action, now completed, aims to harmonise, coordinate and optimise the resources and actions of the different state sectors, to promote the prevention of sexual violence, as well as the detection, prosecution and punishment of related crimes and safeguarding of the surviving victims. These actions have resulted in the production of the following documents: Diagnosis of the problem of sexual violence in Guatemala and Proposal for a public policy against sexual violence in Guatemala (2019-2028).
- ▶ Promote the actions of the Specialised Gender Group – GEG –, led by the Guatemalan Public Prosecutor, which represents the country in the Ibero-American Public Prosecutors Association – AIAMP. Through the GEG, we are helping the association to develop an Annual Action Plan, to review regional instruments to promote its adaptation and application in the institutions in the region and undertaking other actions to strategically strengthen criminal investigation and prosecution in cases involving gender violence.

Line of Action: Mainstreaming, budget and statistics

- ▶ We are supporting the National Office for Women in updating the reference manual on the human rights of Guatemalan women, particularly Mayans, Garfuna, Xincas and Mestizos, promoting their emancipation, organisation and access to decent work.
- ▶ We are also generating baselines and indicators with a gender focus for surveys and agricultural censuses by the Ministry of Agriculture, Livestock and Food.

Area: Democratic Governance Policies

Line of Action: Regional Development

- ▶ Support in the design of an Urban and City Specialisation Policy to address the transition from being a rural country to one that is predominantly urban. The strategy is broken down into two key policies: national urban and housing policy and a smart specialisation policy for cities and metropolitan areas. EUROsociAL+ delivered the policy and since November 2019 implementation has been taking place, through a first pilot in the Quetzaltenango-Xela metropolitan area. In March 2020, the National Urban Forum was held, which we supported together with the UN/HABITAT III.
- ▶ Cross-border MEXICO-GUATEMALA: we are supporting the approval and implementation of the cross-border Binational Strategy and its implementation. The objective of the

initiative is to contribute to channelling the joint efforts by the governments in both countries towards transforming the region's society and economy through a new connective thrust, leading joint actions to generate opportunities for the population that lead to conditions of security and economic and social development. The document that compiles the strategy is available in the EUROsociAL+ Library: Binational Strategy for Mexico-Guatemala Border Territorial Development. A second phase of the action is expected, to implement the designed policy.

Area: Social Policies

Line of Action: Active Employment Policies

- ▶ The action "Strengthening the Functioning of the Institutional Framework of the National Employment System" has contributed to the implementation of the National Policy for Decent Employment (PONED) and the strengthening of the institutional framework as a mechanism for its implementation. The work of EUROsociAL+ was undertaken with technicians from the Ministries of Economy, Labour and Education gathered at the Inter-institutional Technical Round Table (MTI). The lines of work included the strengthening of the MTI, the Municipal One-Stop-Shops, the Youth Information Centres (VUMES-CIJ) and the strengthening of the National Labour Training System (SINAFOL). A second phase is now being worked on to continue strengthening the system.
